### Artist Statement

Grace's art serves as a visual diary of her emotional exploration and inner transformation. With each brushstroke and intricate stitch, she weaves a narrative of strength and vulnerability, inviting viewers to reflect on their own experiences of growth and self-discovery. The blend of colours and textures in her work mirrors the complexities of human connections, celebrating the beauty found in both the smooth passages and the rough patches of life. Grace's art is a testament to the power of creativity as a tool for healing and introspection, a gentle reminder that through art, we can find solace, inspiration, and a deeper understanding of ourselves and our place in the world.
