Rowan Collinson Hedgerows

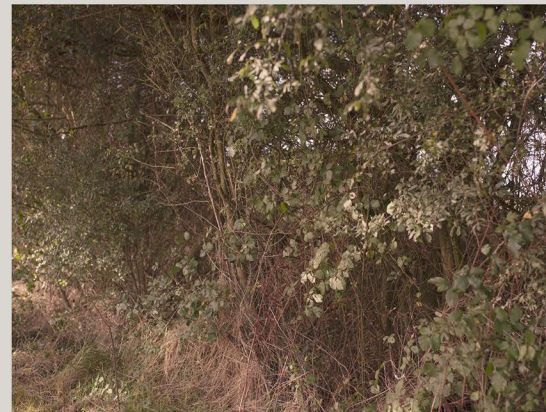

Miniature pinhole paper positives developed using nettle developer

This project focuses on the hedgerows close to my home through a range of visual outcomes which use hedgerow plants as a component of the creative process.

Rowan Collinson Hedgerows

Anthotypes made with leaves and berries from hedgerow plants

Rowan Collinson Hedgerows

Still life photographs of leaves from hedgerow plants

Rowan Collinson    Croft Cottage

This series explores the connections between people, place and time, telling the story of one house and garden through four generations of my extended family.

Rowan Collinson To the river's end

This body of work documents the course of the River Blyth in East Suffolk, from its source near the village of Laxfield to the tidal estuary between Southwold and Walberswick on the North Sea coast.

Rowan Collinson A footpath through winter

This series is the culmination of four months spent documenting a local footpath through winter. I walked this path multiple times a week, experiencing the subtle changes in the natural world, day by day.

Rowan Collinson A footpath through winter

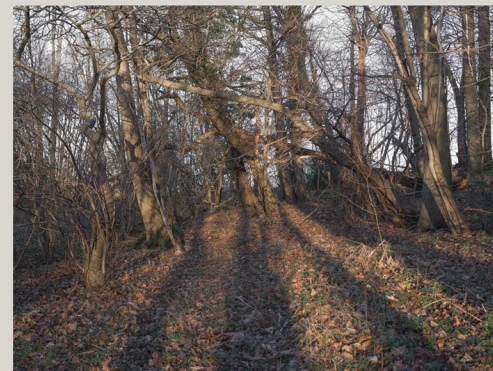

Cyanotypes toned with bramble leaves, alder catkins and oak galls

Rowan Collinson A footpath through winter

Plant developed black and white 35mm film
